

8th Annual Lupini Construction, Inc. Technical and Safety Meetings

February 6-7, 2014

Lupini Construction, Inc. would like to thank all who participated in our 8th annual technical and safety meetings. The 2014 technical meeting saw an attendance of over 100 company employees, design professionals, and building owner representatives; our largest attendance to date despite the unfavorable traveling conditions the day before. A special thanks to our guest presenters for their time and for sharing their knowledge and experience with us.

This 2 day event was initiated 8 years ago in order to address quality and safety concerns encountered throughout the prior year so we can learn from them and continue to provide the highest standards of quality and safety on our projects which Lupini Construction is noted for. New to the program this year were awards presented for exceptional projects and a presentation of two Lupini Project Profiles.

The event has grown and improved year-to-year since its inception, this year was no exception. We look forward to the program's continued success with even more participation next year.
